

The FAA Safety Team presents:

FAASTeam Flight Instructor Open Forum

Some of the deadliest accidents involving airplanes have occurred not in the air, but on the runway. This problem, though simple on the surface, requires all parties involved in airport operations to work together to create a safer, more vigilant environment. So, how do you teach airport surface safety? Are you using the best practices recommended by the FAA and industry experts? Do you demonstrate the common errors? Flight Instructors, Ground Instructors, Designated Pilot Examiners, and Instructors in training are welcome and encouraged to attend. Join your flight instructor colleagues and take an active role in improving safety in flight training! Please go to the link below to see more details and to register on-line.

Directions: Go to the Conference Room upstairs in the Terminal Building. See the attached PDF file for location of staircase to the Conference Room. Park in parking lot outside Terminal; tell police officer that you are attending CFI Forum.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
